Subject: Ferroresonance WG meeting - Tuesday 10am-noon

For those who are attending the IEEE PES General Meeting in Tampa next week:

**The Practical Aspects of Ferroresonance WG will meet as follows:**

***Tuesday 10am - noon  
Convention Center Room 32***

Minutes from previous meetings can be read at  
[http://www.ece.mtu.edu/faculty/bamork/FR\\_WG/](http://www.ece.mtu.edu/faculty/bamork/FR_WG/)

**Agenda for Tampa meeting:**

- Overall status of publication
- Overview of contributors and status of their contributions
- New contact with Cigre C4 WG: Alain Xemard, EDF; Lubomir Kocis, EGU-Prague.
- Possible collaboration on this or future documents with Cigre.
- Plan for wrapping up the document
- Informal technical presentations by contributors (one volunteer so far), 15 mins each:
  - Michel Rioual, EDF. Ferroresonance during energization of a 40-MVA 110-20-kV distribution transformer.
  - One open slot still available if anyone has a topic they wish to present or discuss.
- Planning, scheduling
- Other business or topics.
