Subject: Ferroresonance WG meeting - 10am Tues

Discussion, Practical Aspects of Ferroresonance WG: As followup to my informal announcement of our WG meeting, here is the formal agenda:

For those who are attending the IEEE PES General Meeting in Pittsburgh next week:

**The Practical Aspects of Ferroresonance WG will meet as follows:**

***Tuesday, July 22, 2008 10:00-12:00***  
***Location: CC Room 329***

Activities to date and shared info and case studies are posted at  
[http://www.ece.mtu.edu/faculty/bamork/FR\\_WG/](http://www.ece.mtu.edu/faculty/bamork/FR_WG/)

**Agenda for Pittsburgh meeting:**

- Minutes of 2007 meeting (not yet provided by secretary, will post when provided)
- Overall status of publication, report from David Jacobson
- Overview of contributors and status of their contributions
- New contact with Cigre C4 WG: Alain Xemard, EDF; Lubomir Kocis, EGU-Prague.
- Possible collaboration on this or future documents with Cigre.
- Plan for wrapping up the document (we may need a volunteer to take over the document preparation)
- Technical presentations "Misperceptions - things that are NOT ferroresonance, 15 mins each:
  - Michel Rioual, EDF. "sympathetic interactions" between transformers for wind-farms
  - Bruce Mork,
  - Open slot for last minute volunteer, any topic related to ferroresonance is ok.
- One open slot still available if anyone has a topic they wish to present or discuss.
- Planning, scheduling
- Other business or topics.
