

About the cover

The cover features the Tutte 8-cage. This is the unique smallest cubic graph of girth 8. It was discovered by Tutte in 1947 and its connection to finite geometry was investigated by both Tutte and Coxeter in 1958. It has since also become known as the Tutte-Coxeter graph.

Professor W.T. “Bill” Tutte was the first president of the ICA and served as President from 1990 to 1996.

The cover was designed by Jaromír Sedláček.
