NEWSPAPER  
INTERVIEWS,  
GIFTED CHILDREN  
OUTREACH

During the last many years, I have been giving a number of interviews to Italian newspapers, both about myself and my professional activities in the United States, and more importantly, the education of gifted children and young adults. These interviews were released to, among others, “Corriere della Sera” and “La Repubblica” (the two main Italian newspapers), “Focus,” and “Alice & Bob” (a journal of Bocconi University, a leading European Business School). From 2011-2020, I served as a member of the Scientific Committee of AISTAP (the Italian Association for the Development of Talent and High Ability). I have been a member of Mensa Italia, where I served for two terms as Secretary of the Liguria Region, since 1997.
